

Watch out!

If you get any closer you'll get a cowlick right in your face.

*Funny Fun Farm Friends* explores the funny facets of farm animals up close. Featuring the southern bluegrass gospel stylings of *Mice In The Basement*—live on the farm, and piano solos by Jeff Bjorck, Karen FitzGerald, and Josiah Smith.

Forget about sleek, well mannered animals—see your kids fascinated as they watch and listen to a dirty, googly-eyed cow closer than they've ever been.

*Funny Fun Farm Friends* is full of humor your entire family will love. If you like *Country or Reminisce Magazine* you're sure to love this video.

Beautiful, playful, artistic, and fun—*Funny Fun Farm Friends* is real life at it's best.
